

VALUE-ADD HANDLING

To Commingle, or not to commingle?

You can request that we NOT commingle your meat with other deer trim for crafting your value-add requests. A 25 lb minimum is required.

Handling Charge to reserve your trim from commingling - \$25 per order

If you allow us to commingle your deer trim for value-add crafting, no minimum value-add requests are required. Your harvest is weighed, and the equivalent weight of the value-add products you select are included with your processing order.

Processing turn-around is substantially quicker when you allow for commingled value-add processing.
