

VALUE-ADD HANDLING

To commingle, or not to commingle?

Requests that we NOT commingle your meat with other deer trim are accepted.

A 25 lb minimum is required.

A handling charge for non-commingle processing applies - \$25 per order

Commingle your trim with other deer trim for value add processing and enjoy no minimum poundage per product requests. Your harvest is weighed and the equivalent weight of the value-add products you select are included with your processing order.

Processing turn-around is substantially quicker when you allow for commingled value-add processing.

PROCESSING TURN AROUND

Our efforts are to have wild game processing requests completed by 30 days after trim is dropped off.

PICKING UP YOUR PROCESSING

All processed deer must be picked up & paid for in full within ten days after you receive a call that it's ready.

Deer not picked up within ten days after being notified it is ready will be subject to a \$20 weekly storage fee.

Deer not picked up within thirty days after being notified it is ready will be disposed of, per Iowa DNR regulation.

Non-Commingled Orders are processed last, after all commingled orders are complete.

Cooked products have added pork.
Opt for non-commingled processing if you prefer beef instead.

Jerky / Fresh weight cooks to 50% less.
