

Story City Locker's primary purpose is to provide custom livestock harvest. We're an abattoir (slaughter house) in Central Iowa.

Having a small retail space with a small selection of regional meat, harvested by us, is for hospitality.

The items in our Butcher Boxes are the most commonly requested retail meat cuts by our retail customers.

Custom Butcher Boxes are not practical for our service business. We do not compile custom Butcher Boxes by request.

We hope you enjoy our selections of dry aged meats!
(Pricing listed is typical for Fall 2018, but not guaranteed. Farmer rates and season both influence pricing and are subject to change.)

If we currently don't offer a Butcher Box that satisfies your preferences, please consider the benefits of custom processing. It's what we do best!

The back of this brochure has current budgeting information for custom processing beef, pork, and lamb.

Where your meat comes from matters. And, what happens between pasture and plate impacts quality.

We're proud to offer Iowa's finest meat cuts direct from Story City Locker's cleaver!

Consider Custom Processing
